PROFESSONAL EXPERIENCE

Mobile Application Tester ***MN, Mankato***

M Eaton Trucking LLC / University Client Project *Aug 2026 – Dec 2026*

- Tested and troubleshot an Expo React Native mobile application integrated with Django REST APIs and PostgreSQL, and identifying authentication.
- Expanded automated testing from 101 to 275 tests across 26 test suites, increasing branch coverage from 40.80% to 79.48%, exceeding the 70% target.
- Identified and documented 8 reproducible software defects, including security, authentication and mobile functionality issues.
- Collaborated with the development team to identify technical issues and prepare the application for real-world deployment.

Annual Giving Engagement Manager ***MN, Mankato***

Minnesota State University, Mankato *Sept 2023- May 2028*

- Manage student engagement ambassadors responsible for connecting with alumni and supporting university fundraising initiatives.
- Supervised 25 student ambassadors overall and 12 caller per shift, monitoring 1000+ alumni calls and improving the outreach performance.
- Trained 30+ new ambassador, improving call and doner engagement rate.
- Develop leadership, communication, and problem-solving skills through team supervision and alumni relationship management.

PROJECT EXPERIENCE

AI-Powered Digital Resume & Personal Portfolio Link *Sept 2026 – Oct 2026*

Personal Project

Technologies: HTML, CSS, JavaScript, WebLLM, WebGPU, Llama 3.2, Supabase, Vercel

- Developed a responsive AI-powered portfolio, browser-based assistant using WebLLM and WebGPU to answer questions about myself.
- Answering user question about my technical skill, educational background, professional experience, project and quilifications.
- Integrated Supabase for dynamic data retrieval and context-aware AI responses, with version control through GitHub and deployment on Vercel.

Ghost Student Prevention System *Aug 2025*

Hackathon Project

Technologies: Next.js, React, TypeScript, Tailwind CSS, Gemini API, CSV Processing, Nodemailer

- Collaborated on developing a student engagement monitoring system to analyze CSV datasets and identify students at risk of disengagement.
- Integrated Google's Gemini API for AI-powered student engagement analysis and implemented automated email notifications to support early intervention.

Reflection Journal Web Application Link *Nov 2026*

Personal Project to solve my own problem

Technologies: React, TypeScript, Vite, Tailwind CSS, React Router, Local Storage

- Developed a responsive web application to organize academic reflections by class and topic.
- Implemented functionality to create, edit, and manage reflection entries.
- Used browser local storage to persist reflection data without requiring a backend database.
- Built a mobile-friendly interface and prepared the application for deployment through Vercel.

LEADERSHIP

President | Nepalese Student Community (NeStCom) *Aug 2025 – Aug 2026*

Minnesota State University, Mankato | Recognized Student Organization

- Led a recognized student organization representing 200+ student members**,** promoting cultural diversity, student engagement, and community.
- Coordinated and supported 3+ cultural and community events**,** strengthening student participation and cultural awareness.
- Collaborated with university departments, student organizations, and executive board members to organize events, manage logistics.
